

Student Analyst at Hereford Capital

Hereford Capital is a London-based private equity firm investing in UK companies with £5M-£100M in annual revenues. Our key focus is management buy-outs, performance improvement and asset-backed loans. The uncertainty created by Brexit has created a particular demand, and investor interest, for the types of investments we provide. We have now seen success in raising our first Fund, making this coming month a particularly exciting time to join our team.

We are currently looking for BSc/MSc students to join us in December and early January at Analyst level.

The Hereford Analyst experience:

As an Analyst at Hereford, you will be part of a growing and ambitious team whose main task is to carry out the internal office and investment-related tasks of the firm, along with ongoing assistance to the group's portfolio companies.

Employees have following their time with us gained admission to top global business schools. Others have moved on to secure employment with leading finance and consulting firms, including Bain & Co, Boston Consulting Group, Bain Capital, Morgan Stanley, Rothschild, BlackRock and Fidelity International.

The Student Analyst experience is ideal for candidates who are pursuing a BSc/MSc in Finance, Economics, Accounting or another quantitative field, and seeking part-time work. Successful Student Analysts may receive the option to stay at Hereford full time upon graduation, or participate in summer or off-cycle internships.

We look for the following qualities in our candidates:

- Responsible and independent
- Structured and systematic in approach to own work
- Excellent communication skills; verbally and in writing
- Highly ambitious, with the desire to create a different and unique professional profile
- A proven interest in business, finance and/or IT – as reflected in their studies, earlier work experience, etc.

We offer:

- Paid top-tier business employment in a fast-growing investment company based in Chelsea (near South Kensington station) and Mayfair, London
- Relevant work experience and growing responsibility within the firm and our portfolio companies, centred on Business Analysis and Supplier Negotiations. We accentuate this further through sponsored fast-track training, paid-for learning materials and structured learning plans to track and accelerate personal progress throughout the employment
- Flexible working hours adjusted to individual requirements; between 10 and 15 hours per week during term time, no work during exam periods and either part or full time (up to 35-40 hours/week) outside term time.

For further information and to apply, visit herefordcapital.co.uk/ambition

We look forward to learning more about you.
